

Husnain Faisal

Laravel / PHP Full-Stack Developer

Lahore, Pakistan · [+92-302-4149916](tel:+92-302-4149916) · stoneager23@gmail.com · [linkedin.com/in/husnainfaisal](https://www.linkedin.com/in/husnainfaisal) · husnainweb.online

Laravel/PHP full-stack developer with production experience across client websites, REST APIs, and business/ERP applications. Build and maintain Laravel and WordPress/WooCommerce systems for university and enterprise clients, with independent freelance work supporting 1,000+ users. QA background spanning Purchase Requisition, GRN, Inventory, Fee Management, and HR modules across multiple ERP systems.

EXPERIENCE

Laravel Developer Dec 2025 · Present

NetRoots Technologies (NRT) · Lahore, Pakistan

- Developed Laravel pages, dynamic blogs, and admin CRUD panels for university clients including UCL and BHS
- Maintain client WordPress/WooCommerce sites · resolved plugin conflicts, SMTP failures, and SEO/sitemap issues
- QA testing on Cornerstone, MCJ, and OPF Laravel ERPs across Purchase Requisition, GRN, Inventory, Fee Management, and HR
- Log structured Excel bug reports and coordinate fixes with the development team in an Agile workflow

Full-Stack Web Developer Sep 2025 · Present

Freelance / Contract · Remote

- Built and deployed Laravel applications supporting 1,000+ end users in production
- Designed RESTful, JWT-authenticated APIs with role-based access control, reducing payload size by ~40%
- Optimized MySQL queries and indexing, improving response times by ~35%

PROJECTS

Learning Management System

Laravel · MySQL · REST API · React · Chart.js

- Role-aware dashboards for Admin, Instructor, and Student with JWT auth and RBAC
- Built course, lesson, and enrollment management on a Laravel REST API backend
- Added Chart.js analytics and persistent UI preferences with dark/light theming

Factory Management System

Laravel · MySQL · REST API · Bootstrap

- Built ERP modules for articles, fabrics, inventory, invoices, and customers on a normalized MySQL schema
- Automated invoice generation, cutting manual processing time by ~60%
- Exposed a REST API for third-party integrations, with RBAC across user roles

SKILLS

Languages	PHP · JavaScript · SQL · HTML · CSS
Frameworks	Laravel · React · Bootstrap · Chart.js
Backend	REST APIs · JWT · RBAC · CRUD · Auth
Database	MySQL · Database Design · ERD Modeling
CMS	WordPress · WooCommerce
Tools	Git · GitHub · Composer · npm · VS Code
Practices	QA Testing · Agile · API Design

EDUCATION

BSc, Software Engineering Technology

Punjab Tianjin University of Technology

Lahore, Pakistan · Expected 2026 · GPA 3.01/4.0

ACHIEVEMENTS

- Won an internal NRT competition by building a 6-sheet Excel workload management tool with live dashboard formulas and self-updating indicators

PROFESSIONAL DEVELOPMENT

- Advanced Laravel course, Udemy · continuous project-based upskilling
